

MUSH PUPPIES
SIBERIAN HUSKIES
by Kilgallon Kennels
LIMITED WARRANTY/GUARANTEE

1. It is Buyer's responsibility to have puppy examined by a US licensed veterinarian of Buyer's choice within 72 hours of receipt of puppy to protect Buyer and Seller. Seller guarantees that puppy is free of life threatening diseases or disabilities for 72 hours after delivery to Buyer. Should life threatening diseases or disabilities be discovered by Buyer within 72 hours after receipt of puppy, and attested to in writing to Seller by Buyer's veterinarian, Seller will provide Buyer with a replacement breed quality puppy as soon as a puppy is available.
2. Vaccinations must be kept current and the puppy must receive treatment and preventative for internal parasites. All puppies will be up to date on vaccinations and wormings before going to their new homes.
3. If within 12 months from birth, the puppy is diagnosed with any genetically derived life threatening medical disorder, which is attested to by two unassociated US licensed veterinarians, money will not be refunded, but you will be given a replacement puppy of equal value as soon as one becomes available.
4. If within 12 months, the puppy dies, a necropsy **MUST** be performed by a state or university veterinary pathologist and a report issued and provided to seller with cause of death. If the cause of death is genetically derived, money will not be refunded, but you will be given a replacement puppy of equal value as soon as one becomes available. The puppy is not to be interred until after a proper necropsy report is received.
5. Buyer must pay any shipping or miscellaneous charges associated with transport of Dog/Bitch and/or replacement puppy.
6. Seller guarantees that puppy is in good health and has received appropriate medical inoculations and care including vaccination(s) and worming(s). Seller will provide Buyer with a medical chart and/or vet receipts detailing treatment puppy has received under Seller's care.
7. All puppies will be chipped with either an AVID or HOME AGAIN microchip (Breeder's discretion) before going to their new homes, unless otherwise requested by Buyer. Buyer will be supplied with application or on line directions for submitting application.
8. Guarantee does not cover undescended testicles, fertility in males or females, eye colors/shades, facial markings/masks, or coat colors/shades.
9. Our puppies are only to reside in the continental United States, Alaska and Canada for the guarantee to apply.

Please Note: After a vaccine is administered, immunity is not immediate -it takes about five to ten days to become effective. However, puppies that still have maternal antibodies will not be affected by the vaccine. There is no way to be certain if a puppy still has maternal antibodies, hence the reason for boosters. True immunity is uncertain until about four months of age, or until all puppy boosters are completed. Avoid bringing your puppy to dog parks or otherwise exposing your puppy to unknown animals until all vaccinations have been given. Do not let it around other dogs, shoes, veterinary floors, grass areas or anywhere he may come into contact with a disease, until all puppy vaccinations are completed!

Seller strongly recommends that Buyer attend obedience classes with puppy and provide proper socialization opportunities.

By submission of a puppy application the Buyer agrees to all the terms set forth in this guarantee.

Enjoy your new AKC Siberian Husky Puppy!
